**Note** This list is the latest *probable* list of Primary shelters and was provided by the Red Cross Disaster Director. That is, the shelters that are expected to be opened first in the event of a declared emergency. However the County Office of Emergency Management and the American Red Cross may change either the sequence of opening or the actual shelters, as necessary. There are actually seven Primary shelters, (South Mainland Community Center is not a Primary shelter).

There are nine Backup shelters and seventeen Host shelters should they be needed. Information on unlisted shelters will be passed to deployed operators when assignments are made.
