

## Space Coast RFI Information Form

Help us help you. Please provide as much information as you can, we distribute it to our members to formulate a plan of attack and will get back to you. Thanks!

Open this form in a browser, fill in the boxes, then from the browser menu, select "Save page as" and filetype: "PDF" on your computer. Attached the saved file in an email to:

[RFI-SpaceCoast@groups.io](mailto:RFI-SpaceCoast@groups.io)

Date: \_\_\_\_\_

Name: \_\_\_\_\_ Amateur call sign (if any): \_\_\_\_\_

Contact info: Phone: \_\_\_\_\_ Text OK? \_\_\_\_\_ Email \_\_\_\_\_

Home address: \_\_\_\_\_

So we know where to start hunting if we have to come out

Location/address of interference: \_\_\_\_\_

May be different than your home address, such as club station, EOC location, shelter, work, etc.

Frequencies/bands of interference: \_\_\_\_\_

Any particular time of day or recognizable pattern: \_\_\_\_\_

Such as RFI in the day, quiet at night, rain, etc.

Approximate strength: \_\_\_\_\_ Is your OTA TV or satellite affected? \_\_\_\_\_

S meter readings, spectrum screenshots, etc.

AM/FM reception affected? \_\_\_\_\_ Please describe: \_\_\_\_\_

Have you tried to help isolate the problem? \_\_\_\_\_

Walked around with an HT? Used a portable AM/FM radio to gauge proximity? Drove around with a car radio on AM or FM and seeing if there is a direction or location that is worse than others. Killed power to your house, interference remains? Stuff like that.

Does this appear to be jamming or intentional interference? \_\_\_\_\_

Are your power lines buried or overhead? \_\_\_\_\_

If possible, attach to your email an **AUDIO FILE (use AM mode)** of the noise, **with any filters as wide as possible**. Make sure to identify the frequency you used. **SCREEN SHOTS, WATERFALL or SPECTRUM** pictures screens are most helpful.

In your email to us, include any observations you might think pertinent. Recent work on power lines? New solar installation that coincides with onset of interference? How long has the interference been present?

Hope to help you soon! The RFI Space Coast interference team.
